DESCRIPTION

2112 SYNAPSE: Sleek and light weight boot that offers both style and comfort for any work conditions . Using stainless steel for the midsole and toe cap, this boot will not corrode under wet conditions and offers the highest level of protection. The front and back TPU scuff guards offer better durability for kicking the boot off after a long day. The action nubuck upper offers durable resistance to weather conditions, as well as added style component. The breathable Cambrelle Lining will offer breathability in high heats but also keep feet warm in cold temperatures. From the extra padding around the collar, to the foam layered footbed, this boot provides extra comfort and stops your feet from fatigue when working for long hours. Manufactured in accordance with **ISO 9001 Quality Management** and **ISO 14001 Environmental Management** systems.
