## PRODUCT INFORMATION SHEET

Unico Limited, North Main Street, Carronshore, Falkirk. FK2 8HT Tel: 0845 27 86426 Fax: 01324 573401

## STEREX

Antibacterial Concentrated Liquid Detergent

## FEATURES & APPLICATIONS

• Sterex is a preserved mixture of surfactants with a colourant to be used as liquid detergent for the cleaning of food preparation surfaces, tables and dishes. Sterex is non-tainting and suitable for both hard water and soft water areas. It contains an effective, biocide with a wide spectrum of activity.

## APPLICATION DETAILS

Task Washing dishes, glasses, cutlery, pots and pans etc.

Cleaning worktops, tables, bars, refrigerators.

Note: If using an Ounce-a-matic dispenser, one measure = 30ml.

Maximum Dilution 1 in 1000 with water (5ml per 5 litres)

1 in 500 with water (10 ml per 5 litres) How To Use Wash dishes as normal. Rinse with fresh water and leave to air dry.

Clean surface with a cloth, sponge or mop. Rinse with fresh water.

## PRODUCT AND PACKAGING INFORMATION

Appearance & Odour: Clear green liquid with slight odour.

Chemical Description: An aqueous solution of surfactants, biocide, preservative and dye.

Packaging: 2 X 5 litres

Shelf Life: 2 years.

## ENVIRONMENTAL INFORMATION

General Information: This product is expected to have very little ecological impact.

## **Environmental Checklist:**

Biodegradable detergents	Yes	CFC free	Yes	Solvent free	No
Phosphate free	Yes	Acid/alkali free	Yes	Free of dyes/perfumes	No
Recyclable packaging	Yes	Biodegradable container	No	Biodegradable outer box	Yes

## 4. FIRST AID MEASURES

#### 4.1 Description of first aid measures

Ingestion	Drink a glass of water to dilute product.	Do not induce vomiting.	Act immediately to prevent further irritation of
	mouth, throat and stomach mucosa.		

Inhalation If irritation is experienced go in open air and ventilate area. Mouth and throat to be rinsed thoroughly with water. Any irritation requires medical attention

**Eye Contact** Check for and remove contact lenses. Rinse thoroughly with plenty of water for several minutes. If reddening is evident continue rinsing while awaiting medical attention.

Skin Contact Rinse affected area with water, if needed apply a cold compress to relieve irritation.

#### 4.2 Most Important symptoms and effects, both acute & chronic

Where irritation of tissue occurs, stinging and redden accompanied by some discomfort for a short period after exposure. No Chronic effects known

#### 4.3 Indication of any immediate medical attention and special treatment needed

If irritation to the mouth, throat, stomach, skin, eyes or respiratory system occurs and doesnq subside within a few minutes after the first aid measures have been carried out, seek immediate medical advice and have this SDS or the product label to hand.

A cold compress can be used to alleviate skin irritation.

## 5. FIRE FIGHTING MEASURES

5.1 Suitable extinguishing media
 This product is not flammable. Use fire extinguishing media appropriate for surrounding area.
 Unsuitable extinguishing media
 Not applicable.
 5.2 Special hazards arising from the substance or mixture
 Fumes may contain poisonous oxides of carbon and nitrogen (CO<sub>x</sub> & NO<sub>x</sub>) if affected by fire.
 5.3 Advice for firefighters
 Use appropriate extinguishing media for fires in the area. Firefighters should wear self-contained breathing apparatus if heat generated breakdown

products are likely to be present

### 6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Wear protective clothing and eyeshields. Ventilate the area

**6.2 Environmental Precautions** 

Avoid spillage into surface water drains, soil / subsoil or vegetation.

#### 6.3 Methods and material for containment and cleaning up

Hose away with plenty of water, diluting well, unless this would contaminate a water source or vegetation. In which case either collect, dilute as earlier and pour down waste drain (foul sewer) or absorb onto dry sand or similar material and dispose of safely as commercial waste.

### 7. HANDLING AND STORAGE

7.1 Handling	Take care when dispensing product from container and assure adequate ventilation and the use of PPE to protect eyes and skin. Avoid contact with skin and eyes. Do not mix with any other chemicals.
7.2 Storage	Store upright in original containers in a cool dry area out of the reach of children.

7.3 Specific end use(s) Use only as directed by the front page of this document and the product label

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 12.2 Persistence and Degradability

The components contained in this preparation are biodegradable

12.3 Bioaccumulation Potenti	al With the current information available, when used for its intended purpose this product will not cause adverse effects in the environment.
<u>12.4 Mobility in soil</u>	No information available
12.5 Aquatic Toxicity	With the current information available, this is rated as having Acute Toxicity potential but is close to the classification end point for the component that has this rating. Therefore the residual risk is judged to be low.
12.6 Other adverse effects	No information available

## 13. DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods

Discharge used working solutions to drain is acceptable in small amounts due to the dilution of running water by at least a factor of 10..

Concentrated product must be sent for disposal using a licensed waste disposal contractor.

Rinse out empty container with water and consign to normal waste. Washing must provide at least a 10 fold dilution of any material left in the container.

#### 14. TRANSPORT

Not regulated for Transport

## **15. REGULATORY INFORMATION**

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### EU legislation

Safety Data Sheet prepared in accordance with REACH Commission Regulation (EU) No 453/2010 (which amends Regulation (EC) No 1907/2006). The product is as classified under GHS/CLP- Regulation (EC) No 1272/2008 classification, labelling & packaging of substances & mixtures. Ingredients are listed with classification GHS/CLP- Regulation (EC) No 1272/2008 classification, labelling & packaging of substances & mixtures.

#### Guidance

Workplace Exposure Limits EH40.

The National Institute for Occupational Safety and Health (NIOSH) register of Immediately Dangerous to Life or Health Concentrations (IDLH) **16. OTHER INFORMATION** 

This product does not require any special training before use. Usage and handling instructions are mentioned on packaging and on the first page of this Safety Data Sheet .This health and safety information refers to the concentrated product and has been prepared assuming the intended described use is adhered to. Any unusual or novel use of this product is done without being assessed for the impact nor is it part of the considerations in this document.

Diluted solutions can be considered to be significantly less hazardous although they should always be handled with care.

#### Key literature references and sources for data

Safety Data Sheet, Misc. manufacturers.

CLP Classification - Table 3.1 List of harmonised classification and labelling of hazardous substances. CHIP Classification - Table 3.2 The list of harmonised classification and labelling of hazardous substances from Annex I to Directive 67/548/EEC. ECHA - C&L Inventory database.

#### **Revision comments**

This product is now using classification from GHS/CLP - Regulation (EC) No 1272/2008 classification, labelling & packaging of substances & mixtures

The Hazard Statements listed below in this Section No 16 relate to the Raw Materials (Ingredients) in the Product (as listed in Section 3) and NOT the product itself. For the Risk Phrases / Hazard Statements relating to this Product see Section 2.
